

Circle U. Seed-Funding Scheme

Check out all
the seed-funded projects

The Circle U. seed-funding scheme supports bottom-up, small-scale, time-limited projects initiated by academic, research and administrative staff, as well as students, from across our nine partner universities.

Objectives

- 1 Drive bottom-up initiatives to **embed the alliance** within our communities
- 2 **Consolidate** our joint ecosystem (Open Campus, Knowledge Hubs, and Platforms)
- 3 Advance **strategic research and education fields** (not limited to current Hubs)
- 4 Develop high-quality, interdisciplinary, multilingual and **student-led** activities
- 5 Enhance **mobility and international exposure** for students, academics, researchers & staff

“Circle U. seed-funding offered us the chance to test our ideas, connect across institutions, and build the foundation for future educational innovation. It created lasting collaborations and set us on the path toward a sustainable, interdisciplinary consortium.”
- C2C project leader, Aarhus University
