

Seed Funding in Louvain: the PReCISE Summer School

Didone Frigerio, Gitte Kragh, Muki Haklay, Cleá Montanari, Jaqui Goldin, Mercy Ashepet, Caroline Michellier

WHAT

PReCISE offered an immersive program to build and strengthen skills in Citizen Science: 16 sessions over 5 days; >50 participants from all over the world; hybrid event; 12 speakers from 7 different institutions.

HOW

Interactive lectures, workshops, and hands-on activities addressed the principles of citizen science, the implementation of projects in Belgium and across the world, and the challenges of running projects in the low and medium income countries.

NEXT

In need of sustainability and continuity: would an annual PReCISE summer school be possible with the involvement of more partners?
